## Description of the Training Course facilitated

Course Overview
<p>The course “Open Education: fundamentals and approaches. A learning journey opening up teaching in higher education”, aims to build capacity on Open Education and Open Educational Resources (OER) among universities in the South Mediterranean region.</p> <p>The course targets primarily university teachers with an interest in learning more about Open Education and with a motivation to adopt Open Education approaches and OER into their teaching.</p>
Key learning outcomes
<p>After having taken this course, learners will be able to:</p> <ul style="list-style-type: none"><li>- Understand how content released under different kinds of open licences can be reused and apply open licenses to your content</li><li>- Search for, reuse and remix OER</li><li>- Understand what MOOCs are and how to produce MOOCs</li><li>- Adapt OER and MOOCs to your specific context.</li><li>- Incorporate open educational practices into your daily teaching.</li></ul>
Modules
<p>The training programme will cover five modules:</p> <ul style="list-style-type: none"><li>- Module 1. Introducing Openness in Education</li><li>- Module 2. Open Licensing and Copyright</li><li>- Module 3. Creating and reusing OER</li><li>- Module 4. Localising OER and MOOCs</li><li>- Module 5. Open Educational Practices</li></ul>
Project Work
<p>The course includes a project work phase, during which learners use the skills they have acquired to develop their “project work” aiming at “opening up their teaching”.</p>
