

Institutional Roadmap for Open Education

Institution	 Princess Sumaya University for Technology (PSUT)
Country	Jordan
Contact	+962 6 535 9949 – ext. 501. Dr. Adiy Tweissi
Date	December 10th, 2018

Strategic Alignment

Links of this roadmap with the Institutional or Strategic Plan	<p>In which way this roadmap is connected to the institutional plan.</p> <p>This road map is connected with PSUT’s vision on promoting and empowering innovation in learning. The strategic plan of PSUT consists of regulations and steps to be taken in the next 4 – 6 years where improvements on online learning, open education and innovative practices are planned.</p>
Processes required for implementation	<ol style="list-style-type: none"> 1- Alignment between PSUT strategic plan and the regulations of Ministry of Higher Education and Scientific Research. 2- Workshops and training for staff, faculty and students to learn how to use and implement Open Educational Resources (OER). 3- Taking feedback by conducting periodic surveys, interviews, focus groups and case studies. 4- Scientific research on multiple courses to be improved for open education method on institutional level. 5- Build partnerships with local, regional and global institution and vendors to cooperate in the realm of open education.

Relevant Actions

Actions to be developed	OpenMed in PSUT learning management system.
Description	Upload and publish OpenMed course on PSUT's e-learning Gateway (using Moodle) to be available for PSUT faculty members and students
Timeframe	Spring and Summer Semesters, 2019
Priority (if applicable)	Moderate
Expected results and impact	To demonstrate open education for all PSUT members, and strengthen the culture of openness and sharing.
People, teams or department in charge	e-Learning Center, PSUT.

Actions to be developed	Alignment with Ministry of Higher Ed (MoHE) regulations.
Description	Alignment between PSUT strategic plan on Open Education and the regulations of Ministry of Higher Education and Scientific Research.
Timeframe	December, 2018 – July, 2019
Priority (if applicable)	Moderate
Expected results and impact	Develop a new (flexible) policy on e-learning that would help in maintaining quality, shareability and availability of OER in Jordanian universities.
